

Why is my lenovo laptop screen blinking?

Posted by lenovoadmin - 06 Jan 2017 07:33

I had this issue with Lenovo Y70 touch and screen flickering and blinking horizontal lines (not in games). The solution was bios upgrade - I've loaded new bios - version from 10.2015. It works - since 2 weeks now. I had to upgrade bios first. 5 minutes and problem is gone.
