

Lenovo 3000 y410 graphic card upgrade?help me

Posted by lenovoadmin - 06 Jan 2017 12:48

Lenovo Y410 System RAM can handle up to 2GB of memory. Since the machine has 2 slots for RAM and you already have 1GB preinstalled with the computer all you need to purchase is another stick of 1GB RAM.

There is no chance of upgrading Graphics card since it doesnt have a video card slot and the preinstalled VCARD is onboard.
