

Bluetooth & WiFi not working -my laptop Lenovo 3000 Y410 Notebook

Posted by lenovoadmin - 06 Jan 2017 12:50

Check if your wifi module is turned on by switching on a hardware switch on a border or back of your laptop.

1. Click once on right bottom corner on icon with two monitors.

2. Choose connect to network.

3. Choose one of access points

4. Enter password
